

Daily Bond Market Update

July 28, 2026

Market Review

Harga Surat Utang Negara ditutup beragam pada perdagangan Senin (27/07). Indonesia Composite Bond Index naik 0,04% ke level 429,57. Yield SUN acuan bertenor 5-tahun (FR0109) dan 10-tahun (FR0108) naik 0,8 bps dan turun 1,7 bps ke level 7,39% dan 7,32%. Sementara itu, yield SUN acuan bertenor 15-tahun (FR0106) dan 20-tahun (FR0107) turun 0,3 bps dan 2,4 bps menjadi 7,34% dan 7,30%.

Yield US Treasury turun pada hari Senin setelah AS dan Iran menghentikan konflik di Timur Tengah selama akhir pekan, yang mendorong harga energi turun. Yield US Treasury tenor 10-tahun turun 3 basis poin menjadi 4,649%. Yield US Treasury jangka pendek dan jangka panjang juga bergerak turun. Yield US Treasury tenor 2-tahun, yang biasanya mengikuti keputusan suku bunga jangka pendek Federal Reserve, turun sekitar 1 basis poin menjadi 4,32%. Penurunan Yield US Treasury pada hari Senin terjadi setelah AS dan Iran menghentikan serangan untuk malam ketiga berturut-turut. Harga minyak dengan cepat berbalik arah, dengan harga minyak mentah berjangka West Texas Intermediate AS turun 8% menjadi \$82,18. Minyak mentah Brent, patokan global—yang minggu lalu mendekati level \$100 per barel—terakhir terlihat turun 9,5% menjadi \$87,59. Pergerakan ini terjadi karena para pedagang menantikan keputusan suku bunga terbaru Federal Reserve, yang akan diumumkan pada hari Rabu. Perkiraan konsensus menunjukkan bahwa Komite Pasar Terbuka Federal (FOMC) yang menetapkan suku bunga akan mempertahankan suku bunga tidak berubah di 3,75%. Saat pasar mempertimbangkan bagaimana perkembangan situasi di Timur Tengah kemungkinan akan memengaruhi keputusan suku bunga The Fed, investor juga memperhatikan sejumlah rilis data ekonomi lainnya yang dijadwalkan minggu ini. Ini termasuk indeks harga PCE inti bulan Juni, data PDB triwulanan terbaru, dan data pesanan baru untuk barang tahan lama buatan AS.

Fitch Ratings menilai pengunduran diri Perry Warjiyo dari jabatan Gubernur Bank Indonesia (BI) memunculkan ketidakpastian terhadap arah kebijakan moneter ke depan. Kondisi tersebut dinilai berpotensi memperlemah kepercayaan investor dan meningkatkan tekanan eksternal terhadap perekonomian Indonesia. Penilaian tersebut disampaikan Director Asia-Pacific Sovereign Ratings Fitch Ratings, George Xu. Sentimen investor yang rapuh di tengah ketidakpastian mengenai arah kebijakan moneter di masa depan dan persepsi independensi bank sentral, terutama mengingat mandat kebijakan Bank Indonesia yang lebih kompleks. Fitch menilai kondisi tersebut berpotensi menekan stabilitas nilai tukar rupiah, meningkatkan biaya utang pemerintah, serta menggerus cadangan devisa Indonesia. Sebelumnya, pada 4 Maret 2026, Fitch telah merevisi prospek (outlook) peringkat utang pemerintah Indonesia menjadi "negative". Salah satu pertimbangannya adalah meningkatnya kekhawatiran terhadap independensi Bank Indonesia, di samping isu utama mengenai risiko fiskal jangka menengah. Xu menegaskan, kekhawatiran yang sebelumnya telah disampaikan Fitch kini semakin menguat seiring bertambahnya ketidakpastian serta potensi erosi konsistensi dan kredibilitas bauran kebijakan. Terlebih, isu ini berlangsung di tengah meningkatnya sentralisasi kewenangan dalam pengambilan kebijakan. Ke depan, Fitch menyatakan akan terus mencermati perkembangan proses pergantian kepemimpinan Bank Indonesia yang saat ini untuk sementara dipimpin oleh Pelaksana Tugas Gubernur BI Destry Damayanti. Seperti diberitakan, Perry Warjiyo secara mendadak mengundurkan diri dari jabatannya sebagai Gubernur Bank Indonesia pada Senin (27/07).

Corporate News

PEFINDO telah mengkonfirmasi peringkat idA- untuk PT Karya Pacific Energy Tbk (IATA). Prospek peringkat korporasi stabil. Peringkat tersebut mencerminkan cadangan dan sumber daya pertambangan IATA yang besar, posisi biaya rendah, dan sinergi dalam Grup. Peringkat tersebut dibatasi oleh profil keuangan Perusahaan yang moderat, paparan terhadap risiko perubahan regulasi, serta paparan terhadap fluktuasi harga komoditas dan risiko lingkungan. Peringkat dapat dinaikkan jika Perusahaan berhasil memperluas skala bisnisnya, seperti yang tercermin dalam peningkatan produksi batubara yang signifikan di PT Putra Muba Coal (PMC) dan PT Arthaco Prima Energy (APE), yang juga akan semakin meningkatkan profil keuangan IATA. Bisnis yang lebih terdiversifikasi juga dapat berdampak positif pada peringkat IATA.
